EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: In the Title delete "Method of production of semiconductor device" and replace with - - The method of vias on an electrode terminal - -

2. The following is an examiner's statement of reasons for allowance: the prior art of record neither teaches nor suggests electrolessly plating the electrode terminals in order to cover the surfaces of the electrode terminals forming a protective film, grinding the backside of the wafer, covering the wafer with a resin, focusing a laser beam above the electrode terminal to form via holes in the laminate exposing the bottom protective film and filling the via holes by electroplating .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2891

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Yamamoto et al. (US Pregrant Publication 2002/0081530) disclose forming via holes above an electrode by focusing an laser beam on the laminate. Nishiyama (US Pregrant Publication 2002/0192867) disclose the formation of chip-like electronic components.
